Welcome to Securitas

Your trusted partner in security solutions

Security solutions that enhance the power of your security

We believe that security is not just about protection; it's about peace of mind. With nine decades of deep experience, we are a global leader in intelligent security solutions. Our journey has been marked by innovation, dedication, and a relentless pursuit of excellence. Our purpose of helping make your world a safer place is at the center of everything we do. Today, we are proud to have a presence in 44 markets, with over 340,000 employees committed to safeguarding people, property, and communities.

TAILORED SOLUTIONS TO YOUR SPECIFIC NEEDS

Our heritage and global reach allow us to understand diverse security needs, and we tailor security solutions to meet the unique challenges faced by our clients. From small businesses to global corporates, we are there, providing the services and solutions that help businesses focus on what matters most.

IT ALL STARTS WITH THE CLIENT

At the heart of Securitas is our commitment to understanding the businesses we work with. We know that every client is unique, with specific security needs and concerns. That's why we take the time to listen, learn, and develop solutions tailored to each situation. Our approach is built on collaboration, ensuring that we work closely with our clients to deliver security services that truly meet their needs.

People are also at the heart of our security. We combine the latest in security technology with the expertise of our people and presence to provide comprehensive security services.

From remote monitoring and access systems to on-site security provision, our solutions are designed to be flexible, scalable, and responsive to an ever-changing security landscape.

See a different world.

A PROGRESSIVE APPROACH KEEPS YOU ONE STEP AHEAD

At Securitas, we look to the future. Since 1934, we've defined – and redefined – the industry, evolving to meet and anticipate organizations' needs. Today, we're leading the industry's digital transformation. Our forward-looking approach is centered on integrating technology with human expertise to create smarter, more efficient security solutions.

We are digitalizing security and incorporating technologies such as artificial intelligence, data analytics and reporting to enhance our services to clients. Today's security is not reactive; it's proactive and we can provide you with actionable insights to address your security needs in real-time.

INDUSTRY-SPECIFIC EXPERTISE - TRANSPORT AND LOGISTICS

We have deep experience in supporting businesses with their security needs across a range of industries, including transport and logistics.

Our global network provides the reach to support transport businesses across borders, and our solutions protect supply chains end-to-end, from warehouse and logistics facilities to protecting goods and people on the road.

Track & Trace solutions combine devices, remote monitoring support and mobile dispatch services to safeguard people, vehicles, and assets. With personal alarms or GPS

devices and 24/7 support from our Securitas Operations Centers including optional mobile dispatch for extra assistance when needed – we keep your business and employees secure around the clock.

At Securitas, our goal is to be your security partner. Our commitment to understanding our clients, combined with our innovative solutions and global expertise, makes us the ideal choice for all your security needs. Whether you're in the transport and logistics industry or any other sector, we are here to provide the protection and peace of mind your business requires.

Our services

Our security solutions work harder for your business, by combining protective services in the optimal mix to protect what matters most. Our services include:

On-Site Security

Our security officers are trained to provide a visible and effective presence, ensuring safety and security in various environments.

Remote Monitoring

By using advanced technology, we offer remote surveillance and monitoring services that provide real-time insights and rapid response capabilities.

Mobile Patrol

Mobile teams offer flexible security solutions, providing coverage and rapid response across large areas or where a permanent presence is not needed.

Risk intelligence

Data and tech-driven insights, combined with expert analysis provide timely, relevant, and actionable intelligence for organizations.

Fire and Safety Services

We offer comprehensive fire prevention and safety solutions to protect people and property.

Smart security

Today's security can do more than protect your business. Smart sensors and connected devices can enable security systems to do more for your business, such as detect temperature changes, switch lighting on/off or provide access remotely.
